

Historic Jewish Atlanta App

Now you can carry the history of Jewish Atlanta around in your pocket! Whether you're a recent transplant, a lifelong resident, or interested in showing some guests a little history, this app is the perfect way to conveniently explore Atlanta's Jewish roots. No other city in the country has an app exclusively devoted to its Jewish history and The Breman Museum is proud to have brought you this one of a kind experience; thanks to the generous support of the Weiller family in memory of Margaret Straus Weiller.

This groundbreaking app allows users access to articles on historic Jewish Atlanta or Jewish involvement in the Civil Rights Movement. By clicking "Sites Near Me" users can view a map marked by dreidels that each represent a unique historic site. Clicking on a dreidel reveals a wealth of detailed information on the site it represents, and since your location is also marked on the map it's easy to tell which ones are closest to you!

The Historic Jewish Atlanta App also gives users the ability to create shareable e-postcards that can be sent by text message, email, or social media. The postcard tool allows you to take a picture or select a picture from your photo library and place it on six unique backgrounds that showcase images of some of the app's featured historic sites. Users are even able to write text next to their picture to share their thoughts and anything interesting they learned.

Additional historic sites will continually be added to the app so there will always be something new to see or visit. There are even plans in the works to feature an online exhibition on the app in the coming year. Download the app to your smartphone or tablet today by clicking one of the links below or by searching “Historic Jewish Atlanta” in your App Store or Play Store!
